APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place of use and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 16844, Certificate 4542 is issued subject to the terms and conditions imposed in said Permit 16844, Certificate 4542 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a measuring device must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.008 cubic feet per second, but not to exceed 2.02 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before July 16, 1994

Proof of completion of work shall be filed before August 16, 1994

Application of water to beneficial use shall be made on or before July 16, 1997

Proof of the application of water to beneficial use shall be filed on or before August 16, 1997

Map in support of proof of beneficial use shall be filed on or before N/A
